

VDS Pro Simulator Station Datasheet

VDS Pro Training Station 57

A complete installed driving simulator laid out like a manual car, with clutch, gear stick, handbrake, and indicator stalks, and a 57-inch Samsung dual-4K curved monitor that wraps around the driver, built and calibrated on site ready for VDS Pro.

Guide price: GBP 9,999 + VAT

Leasing: Coming soon

Audience: Driving schools, instructors, schools, charities, and training providers

Included station components

- Trak Racer TR8 Pro cockpit with adjustable reclining seat
- Moza R5 direct-drive wheel and three pedals, including clutch
- Moza H-pattern gear stick, handbrake, and indicator stalks
- Samsung Odyssey Neo G9 57-inch dual-4K curved monitor on a cockpit-mounted stand
- High-performance gaming PC configured for VDS Pro
- Wireless headset for the driver
- Delivery, on-site build, calibration, and a staff training session

Planning notes

- Typically 4-6 weeks from order, subject to component availability
- Allow roughly 2.0m x 1.5m per station before final room check
- Manufacturer warranties, typically 12-24 months, with CGA Simulation as your single point of contact in year one
- Price is per station; order two for a two-station room
- A purchased station includes 12 months of VDS Pro software for that station
- Continued access after the included period requires the applicable station plan
- Delivery to the UK mainland is included; other locations are quoted separately
- Leasing is coming soon
